BioTechniques

Join us for the Advancing Precision Medicine *BioTechniques* Online Symposium

Conferences are great for learning about the latest research in the field and for networking, but everyone has at some point wished they were back in the comfort of their own home/lab. You can have the best of both worlds with our upcoming online event!

On 13 and 14 November this year, we'll be holding a free-to-attend virtual conference on advancing precision medicine – and you're invited.

We're currently building an exciting program, and have some excellent experts presenting – including Stephanie Devaney (*All of Us*), Rob Knight (UCSD), Elaine Mardis (OSUCCC) and Heidi Rehm (Broad).

So, join us, our experts and sponsors to learn about the latest tech and techniques in precision medicine, covering genomics, cell models, translational research, host–pathogen/environment interactions and more.

Can't attend the whole event? No problem! Registrants can check back later and watch on demand.

Find out more and register for free at: <http://bit.ly/PrecMed2019>

“...we'll be holding a free-to-attend virtual conference on advancing precision medicine – and you're invited.”

BioTechniques is a peer-reviewed journal dedicated to the publication of original laboratory methods, related technical tools, and methods-oriented review articles that are of broad interest to scientists engaged in basic applied life science research. Complete Instructions for Authors are available at: <https://mc04.manuscriptcentral.com/fs-btn>, *BioTechniques*' website for online manuscript submission. All manuscripts should be submitted at this site.

BioTechniques Staff

Editorial, Production & Circulation

Chairman: James Drake

Managing Director: Phil Garner

Head of Open Access: Francesca Lake

Managing Editor: Joseph Martin

Digital Editor: Abigail Sawyer

Head of Production: Zara Robinson
